Loss on drying (%)	0.25 Max
Specific Rotation	+95.5°~ +98.0°
Oxalate	Passes Test
PH Value	5.5~8.0
Heavy Metals (as Pb) (mg/kg)	10 Max
Lead(mg/kg)	2 Max
Arsenic(mg/kg)	3 Max
Mercury(mg/kg)	1 Max
Clarity	Passes test

?Introduction? Sodium erythorbate is used as food preservatives. Sodium erythorbate market has increased since the U.S. FDA has banned the use of sulfites as a food preservative. Sodium erythorbate is considered as an important ingredient in the food preservative industry as it can keep food color and natural flavor, extend the shelf life, and have no side effects.
